

IMPAC®

IMPAC® Super Fix STEEL

Steel epoxy putty kneadable.

Description:

IMPAC® Super Fix STEEL is a non-rusting steel reinforced epoxy putty used to provide fast, permanent repairs to items made of ferrous metal.

Uses:

It will repair holes, cracks and threads in castings, pipes and tools, and can be used to hold fixtures and signs, to make models and prototypes, to form nuts in situ and to lock threads.

Preparation:

Mix by hand the two-part concentric stick until the color of the putty is uniform.

Application:

The surface needs to be clean, free of any dust or humidity. Put the mixed putty on place and mold as needed. When is dry it sets to a hard, dark grey material which can be drilled, tapped, machined or filed as required.

Working life:

- 3 minutos a 20°C.

Storage:

Steel epoxy sticks should be stored out of direct sunlight in dry frost free conditions of temperatures between 5°C - 20°C. Under such conditions shelf life will be 18 months from the date of manufacture.
